## Environmental Policy

Phase 3 Connectors Ltd assemble electrical connectors to customer specification for a wide and varied range of industries and customers.

With informal environmental procedures in place for many years, Phase 3 Connectors Ltd policy is to respect the environment by meeting or exceeding where possible, environmental legislation.

The Company views reduction of impact on the environment as a business issue, and our aim therefore is to improve and enhance through good practices.

To achieve these goals we;

- Supply products which are by their nature recyclable.
- Recycle the by-products of our processes (metals & plastics) through third parties who specialise in these activities and where required, provide evidence of correct disposal.
- Aim to reduce waste from other processes and activities which lend themselves to improvement.
- Ensure responsible disposal of waste products in line with legislation.
- Make use of energy for processes, fuel, lighting and transport as efficient as possible.
- Supply, where customers agree, product packaged in materials that lend themselves to being recycled, returned and or reused.
- Co-operate with initiatives to ensure that the impact and effect of our business is overall, beneficial to the area.
- Avoid direct contamination or damage to the environment by any of our activities

Staff are made aware of their responsibilities and are encouraged to co-operate with company policy.
